

How can Engineering support your future?

We offer Engineering to all students at KS3 and as an option at GCSE. We encourage your continued study in this fantastic subject but we understand that choice and personal interest are important aspects of worthy study. Whether you have continued your study of Engineering into GCSE or not you will have gained access to this enriching subject and its study will have taught you to think differently and deeply.

Studying Engineering will develop knowledge and understanding of how different engineering disciplines have shaped the world we live in.

Many people who study Food Technology go on to pursue careers in fields such as:

- Food Technologist
- Food Product Development
- Food Scientist
- Nutrition/ Dietician
- DT Teacher
- Chef/Catering Industry
- Hospitality Management
- Event Planner
