

## **How can Engineering support your future?**

We offer Engineering Design to all students at KS3 and as an option at KS4. We encourage your continued study in this fantastic subject but we understand that choice and personal interest are important aspects of worthy study. Whether you have continued your study of Engineering into KS4 or not you will have gained access to this enriching subject and its study will have taught you to think differently and deeply.

Studying Engineering will develop knowledge and understanding of how different engineering disciplines have shaped the world we live in.

Many people who study Food Technology go on to pursue careers in fields such as:

- Civil Engineering – Tracks, bridges and stations
- Mechanical Engineering – trains
- Electrical Engineering – Power Distribution
- Electronic Engineering
- Chemical Engineering
- Design Engineering
- Research and Development
- Teaching
