AGS Extra

A benchmark to stand on
and a character to build on

What is AGS Extra?

At Acklam Grange School, we recognise the profound impact that extra-curricular activities have on a child's personal development and how it enriches their character and wellbeing.

Navigating the questions: How do I make friends? What do I enjoy? What can I contribute? Where do I feel I belong? How do I feel about myself when my thoughts are my only company? What do I want to be when I grow up? Who do I want to be?

Through participation, challenge and connection, our young people develop the confidence, resilience and skills needed to thrive in modern Britain and beyond. AGS Extra provides opportunities for learners to explore their interests, discover new talents and try experiences they may never have considered before. By nurturing important life skills such as teamwork, communication, leadership and resilience, our extra-curricular programmes help learners build friendships, grow in confidence and develop a strong sense of belonging within the AGS community.

We believe that every learner should have the opportunity to take part in enriching experiences that support their personal growth.

By organising AGS Extra into Enrichment Categories, learners can more easily discover activities that match their interests, develop new talents and enjoy a broad range of experiences that support their personal growth and character development.

What are they and what do they mean?
Civic Engagement – Helping others, leading by example, and making a positive difference in school and the wider community.
Arts and Culture – Expressing creativity through music, drama, dance, and the arts, while celebrating different cultures and talents.
Nature, Outdoor and Adventure – Exploring the outdoors, developing practical skills, and taking on exciting challenges.
Sport and Physical Activity – Keeping active, working as part of a team, and achieving personal goals.
Wider Life Skills – Learning valuable skills that support success in school, future careers, and everyday life.

Our extra-curricular provision is a core part of our educational offer. To ensure full and active participation, we work to remove barriers, so every child feels wanted, welcomed and able to take part – making reasonable adjustments wherever needed. Whether it's performing in a school play, excelling in a sport, creating code or learning a musical instrument, our learners are walking with purpose and pride towards accomplishment, with staff caring personally that they are there. The sense of personal growth gained through these activities is invaluable in building self-esteem and resilience, preparing learners to face challenges both inside and outside the classroom. There is something for every learner, regardless of age, background or previous experience.

What is AGS Extra?

Our extra-curricular programmes also serve as a key part of our Character Curriculum. Through group activities, learners work together towards common goals, celebrate each other's differences and support each other's success. These experiences foster teamwork and leadership skills, and provide learners with a safe space to express themselves and deepen their connections with peers and the wider school community. These moments of personal growth are invaluable preparation for life beyond school and reaffirm a true feeling of belonging and "family".

Our extra-curricular activities play a vital role in helping learners thrive – both in terms of academic performance and personal progress. Together, these experiences create a cohesive, holistic curriculum that educates the head, heart and hand, giving the AGS family and community, the upper hand. By giving our learners, the opportunities to discover their true potential, we empower them to pursue their dreams with determination and with the confident knowledge that "From little acorns, mighty oaks grow."
